Subject: EPA RCRA Site ID - WAR000200055 for Yakama Pest. Coll. Event in  
Toppenish - April 2004

To: Joe Hoffman, Program Coordinator, WSDA Waste Pesticide Program  
Re: EPA RCRA Site ID - WAR000200055 for Yakama Pest. Coll. Event in Toppenish - April 2004

Hi Joe -

I am following up in writing from my phone call Monday, April 16, in response to your request for an EPA RCRA ID number for the Toppenish Pesticide Collection Event. I understand that this event is co-sponsored by the Yakama Nation Pesticide Program and the Washington State Dept. of Agriculture (WSDA) Waste Pesticide Program and will be held on the Yakama Reservation at the Yakama Nation Legends Bingo facility, 111-B Fort Road, Toppenish, WA 98948.

The EPA RCRA Site ID number assigned to this location is WAR000200055, as per my voicemail message on Monday, 4/16.

Please let me know if you have any questions. My contact information may be found at the end of this email. thank you. Terri Griffith

General Information follows . . .

**General Information regarding managing your EPA RCRA Subtitle C Site ID number:** Your RCRA Site ID number must be included on any shipping manifests when hazardous wastes are moved from a generator's site to another location for storage, treatment or disposal by an EPA permitted Treat/Store/Dispose (TSD) facility. **Transporters of hazardous waste must apply for and place on the manifest their own EPA Site ID number.** In addition, the RCRA Site ID number should be placed on all correspondence with EPA, including letters, faxes, electronic mail (E-mail), database submittals, annual or biennial reports, document submittals or any other documents required under Subtitle C of RCRA.

**HW Generators:** Your RCRA Site ID number is location-specific, and assigned to the physical location where wastes are being generated. Hazardous waste generator ID numbers do not move if a company relocates; nor are they sold when a company changes owners. Each new owner at the location listed above, if engaging in hazardous waste activities, must re-apply for the ID number prior to their first hazardous waste activity.

**If you are a HW Transporter:** If you transport HW commercially and it is your sole regulated HW activity (you do not generate HW or have a permit to treat, store or dispose of HW), your location address must be either your Corporate address or the location from which your HW transporting trucks originate.

**Companies that both generate and transport HW:** Same instructions as HW generators; your RCRA Site ID number is location-specific.

**One-Time HW Generators and/or HW Transporters:** The RCRA Site ID number issued is for a single use only. You must contact us to close this ID number as soon as you complete the HW project. In order to inactivate your RCRA Site ID number you need to contact EPA Region 10 in writing on the company's letter head. Please direct your letter to my attention and include your Site ID number, the effective date for the closure of the RCRA Site ID number, the reason(s) you are closing it and a signature by an authorized person.

**Facilities that Treat/Store/Dispose (TSD) of HW:** This type of HW activity must be issued a RCRA operating permit or interim status by EPA prior to any HW TSD activity. This category of facility is usually a site such as an incinerator permitted to dispose of HW, or a specially constructed landfill permitted to

take HW, or a permitted storage facility for HW or HW waste piles undergoing formal closure. Facilities in this category generally must complete the Notification of Regulated Waste Activity Form 8700-12 and the RCRA Part A and B Forms (SF 8700-23 A & B).

**For all facilities - Changes to your RCRA Site ID Information:** You should inactivate your RCRA Site ID number when your facility no longer engages in hazardous waste activities. Facilities that change ownership, or location must re-notify EPA Region 10 by completing a new RCRA Subtitle C Site Identification Form (Standard Form 8700-12). Other changes, such as closing the RCRA Site ID number, adding additional HW activities or waste codes, changing your contact person or mailing address, or altering your generator status, require that you notify EPA in writing via U.S. mail on your company's letterhead and/or include a subsequent notification via the RCRA Site ID Form 8700-12, as appropriate. Please include your RCRA Site ID number, the effective date of the changes, the reason(s) for the change and the signature of an authorized person. **Please mail notification of changes to:**

US EPA Region 10  
Office of Air, Waste and Toxics, RMRSPU  
1200 Sixth Ave, WCM-122  
Seattle, WA 98101

**For your future RCRA Site ID notification needs, here is additional information:**

#### **HOW TO OBTAIN AN EPA (RCRA Site) IDENTIFICATION NUMBER.**
